

Digital Health - The Skills of the Future

The healthcare industry is embracing digital transformations and unlocking innovation. Join us for an exciting event hosted by HBA Ireland and EY where we will discuss digital advances and what that means for those employed in healthcare. We will explore the digital innovations driving change in the healthcare industry, and discuss the skills required to stay relevant in a changing environment.

Our keynote speaker is Etain Seymour (Head of Digital, Zoetis). She will be followed by a panel discussion including Marie McCarthy (Senior Director, Product Innovation & Information Technology at ICON PLC) and Ciara Finlay (Medtech and Engineering Executive, Ibec), moderated by Michelle Cuddigan (Director of life sciences advisory, EY).

Join us to learn more about the trends shaping the future and what that means to you.

Registration & networking from 5:30 to 6:30
Kick off at 6:30
