

Pfizer Grange Castle-CMC Regulatory Affairs (Vaccines)

Pfizer is the world's premier biopharmaceutical company taking new approaches to better health. We discover, develop, manufacture and deliver quality, safe and effective prescription medicines to treat and help prevent disease for people. We also partner with healthcare providers, governments and local communities around the world to expand access to our medicines and to provide better quality health care and health system support. At Pfizer, colleagues in more than 90 countries work every day to help people stay happier and healthier longer and to reduce the human and economic burden of disease worldwide.

We have an exciting opportunity for a Regulatory Strategist to join our Global Chemistry Manufacturing and Control (CMC) Regulatory Affairs team. This is an excellent opportunity to join a growing and dynamic team and be in charge of various projects across different franchises. We are looking for candidates with a dynamic and agile profile with a scientific background. The candidate should be passionate for vaccines, willing to learn and advance in their career.

You will help Pfizer develop and implement CMC regulatory strategies for large molecule pharmaceuticals and vaccines to meet global regulatory requirements throughout the life cycle. You will participate in a variety of activities, such as, but not limited to, preparing or authoring CMC regulatory investigational, commercial and post approval submissions, representing the company on communications and in meetings with health authorities, assessing impact of new regulations, manages regulatory documents, etc. You will also be in a position to negotiate with regulatory authority personnel to expedite approval of pending registrations and respond to queries.

If interested in applying for this role, email Martin Lanigan on martin.lanigan@pfizer.com.
